

## ENGAGEMENT OF INDIGENOUS PEOPLE POLICY

Fleurieu Cranes Pty Ltd aims to develop positive relationships with indigenous people and communities within the area it operates. The positive impacts of this may vary but as a minimum, we will show absolute respect and cultural understanding by:

- Consulting with local indigenous groups to develop appropriate awareness, sensitivity and understanding of indigenous culture.
- Upholding our obligations to Traditional Owners regarding our impact on local indigenous people and their culture.
- Assisting local indigenous organisations, with any opportunities for positive development in their communities.
- Respecting Aboriginal Heritage sites, ensuring locals are adequately consulted regarding works which may have a social, cultural and/or historic impact
- Promoting employment, education and training opportunities for Indigenous people.
